LET'S PLAY!

SALVO SC PROGRAMMING UPDATES TODAY, APRIL 26 – SUNDAY, MAY 10

Spring has finally arrived! While we certainly wish we were on the fields playing soccer this weekend, we hope that your families were able to get outside and enjoy the sunshine and warmth!

Since our last update, we have learned that schools will now continue with distance learning through the duration of this school year. The Stay at Home order is currently through Monday May 4, with any updates to that likely to come this week. We continue to follow the guidance of the CDC, MDH, and MSHSL. Based on the Stay at Home order and guidance we continue to be in an off-field status.

As we continue to look forward and evaluate our plans for programming, we will make decisions in 2 week periods (May 10 and May 24). We have been monitoring under the guidance of the MN Department of Health, MN Board of Education and MN State High School League as we make our decisions.

This email contains information about the following items:

- Team Budget Refunds
- Digital Content
- Leagues
- Girls Development Academy
- Field Update
- Salvo logo Face Masks
- Looking Ahead

Team Budget Refunds

Salvo staff continues to work through the review of each team's budget. As a reminder, these reviews are based on information from Feb 29, 2020. We will do a final review for every team after the end of the season.

As we process your individual account adjustment, you will receive an email(s)

noting the refund/adjustment. Refunds were also adjusted to reflect any outstanding balances due from past years.

As each team is completed we are uploading an updated team budget document to your Teamsnap accounts. This document will show the amount of the original team budget per family, updates/adjustments to specific events or roster size, and the new budget amount. You can find the document in the Media tab, Team Budget folder.

Digital Content Support

Digital content is being created weekly by our content teams. We have broken our staff into four content teams:

1. 13+ Team (focused on our Geo players)
2. 9-12 Team (focused on our Geo players)
3. HP and GDA (focused on our Navy, Orange, White, and GDA players)
4. Community Team (focused on all of our community players)

These teams deliver player-focused content in two ways. One way is direct to the player, and another is to the coaches to use with players. Our goal is to provide a club focused idea and provide coaches with content they can adapt for their team(s). Each week teams deliver content focused on our core values (ownership – teamwork – leadership – and respect) and on items the coaches in their group have requested.

Weekly content schedule:

Tuesdays – 9-12, Community, and 13+

Wednesdays – HP and GDA

Thursdays – 13+

Fridays – 9-12

Saturdays – Community, HP and GDA

Content for players posts on our player's page and coach support content is sent directly to the coaches.

League Update

As of today's communication, all regional leagues have been cancelled. Locally, MYSA has pushed their return to play date back to June 1. TCSL is holding on announcing a return to play date until more information is received on the Stay at Home order and potential timing of organized sports resuming.

Girls Development Academy

We were notified on April 15 that US Soccer was cancelling the remainder of the spring season for the Girls Development Academy and dropping the program in its entirety for future seasons. Upon that announcement, the directors of the clubs participating in the Development Academy began working together and have created the Girls Academy.

The Girls Academy is split into 6 conferences, with Salvo participating in the Mid-America Conference. Salvo teams will continue to have a 10 month soccer program on a national platform with the best clubs in the country. These teams will have high college exposure, participating in both regional and national events. The Girls Academy League will kick-off its inaugural season this fall. More details will be shared as they are available, including player id plans and fees. Watch our website for more information.

Fields Update

We have been in touch with all of the cities that we rent field space from in regards to their plans and thoughts about return to play. All of the facilities are following the current orders and none have declared a closed date beyond the governor's orders. All of the facilities are being maintained on a scaled back effort. As you have seen there are no nets on goals (if there are even goals out), and there are no lines painted. City staff will be mowing fields but on a reduced schedule. As fields are allowed to open to groups, it will take time to get everything up and running. Your help will be needed and is appreciated as we work to get nets up.

We have also begun discussions with the cities on plans that allow for social distancing. As we get more details on what that includes we will continue to pass the information along.

Salvo logo Face Masks

Are you looking for face masks for yourself and your family? Want one that shows your support for Salvo? We have partnered with Podiumwear, a local MN uniform and apparel manufacturer, to offer face masks with the Salvo logo. The online store is expected to open later this week. Families can purchase the face masks and they will be shipped direct to your homes. More info coming soon!

Looking Ahead

Camp registrations are open and we are working on plans to allow for social distancing. These include lower staff to player ratios; smaller group sizes; staff wearing facemasks; increased availability of hand washing/sanitizing; and screening of staff and players prior to participation each day.
