Return to Play Survey Update Wednesday, May 20

Governor Walz spoke today and addressed our current situation. He discussed the next progressions of our Stay Safe MN Plan. During his address, he acknowledged that we are in a slow process. Progressions between phases will not be locked into specific dates but will continue to be monitored and adjusted as COVID-19 impacts our state.

As a result of this message, we will be working to clarify opportunities for our club. We will try to provide additional clarity in our COVID-19 bi-weekly Sunday communication on May 24.

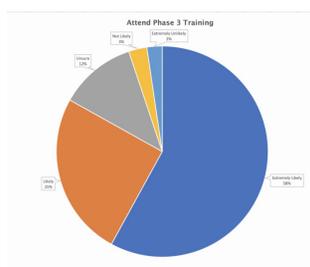

Below is information about the return to play survey completed by Performance families during the last week.

Big Takeaways

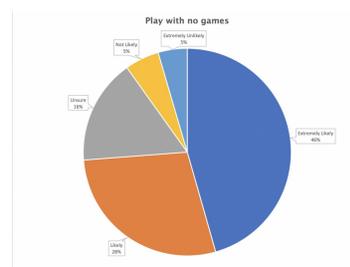

- 68% of our Performance families completed the survey
- Club response was proportionate to each part of the club – Central, East, South, HP and DA
- 80% of our families who responded plan to return to play in Phase 2
- 83% of our families who responded plan to return to play in Phase 3
- 74% of the families who responded intend to return to play if there are no games this summer

Attend Phase 2 Training

Attend Phase 3 Training

Play with no games

Further Clarity For Your Questions

- We will comply with social distancing guidelines
- Length of the season will not extend beyond its traditional timing
- The detailed return to play plan will be in your hands for review before hitting the fields
- Our goal is to keep the training groups very consistent during a phase, ideally by team
- Families have the ultimate decision – if they choose not to return we completely understand, but this does not change the timing of refunds
- When we get back to playing games, it will be when we can play and not be concerned with social distancing
- This summer there will be no indoor practices
